COURSE COMP125 Winter 2022 ASSIGNMENT #3

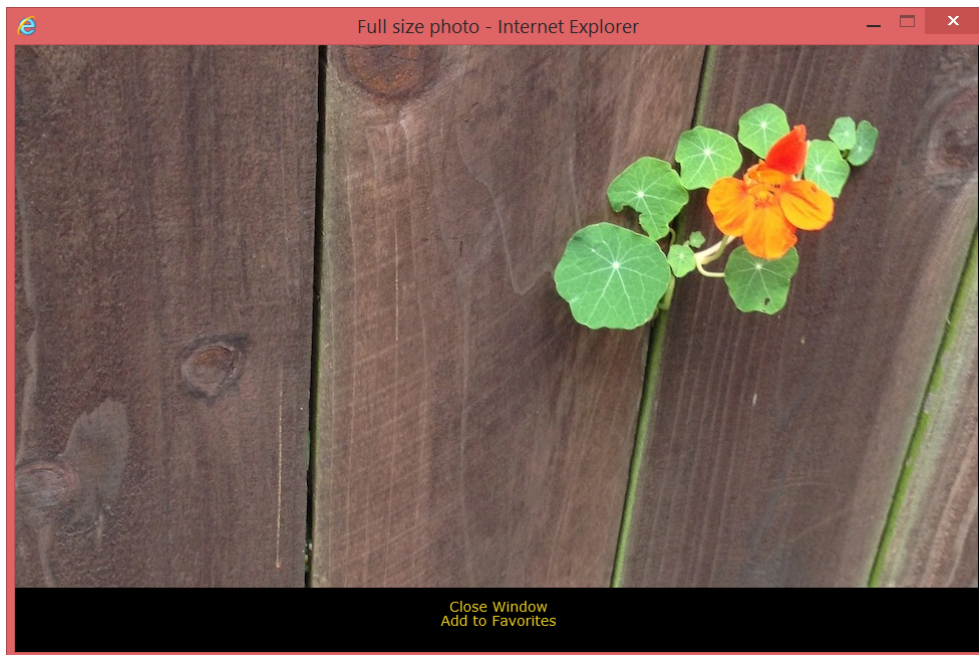

DOM

Modify the chapter 5 example (photo viewer) to include the following features:

1. When the user clicks on a picture and it opens a window containing a zoomed version of the image, give her a hyperlink (button) to add the pic to a favorites' area at the bottom of the first page (add img nodes to the DOM).
2. A maximum of 5 pics can be added to the favorites. After that a message is displayed to remove at least a favorite first.
3. If the user clicks on a favorite, a Remove link (button) shows up next to that picture. If the user clicks it, the pic is removed from the favorites.
4. **(10% of the grade)** Use good web design practices to enhance visually your html page. Add a title, picture, copyright line, etc.

Basic screenshots for the functionality of this assignment are shown below:

This assignment is **due on 08 February 2022 at 11:59 pm**. **Late assignments are accepted 7 more days after the due date and they are marked out of 75%**. Submit your assignment to Assignment 1 drop box. **ALSO PUBLISH IT** to the student web
